Music is a passion for this group. Seen ideally as a voice for the overthinker, The Homeland Conspiracy or "THC - for short", enjoys putting quality effort into their live show. Coming from LaCrosse WI, one of the nation's highest ranked cities for bringing the party, THC is known for throwing a respectable show.

As a supporting act, THC has yet to disappoint. Their satirical spoken word politics and collective harmonies incite any crowd to start pressing forward. With Influences from a collective of genres and always looking for relevant material to satisfy the short attentions of the modern crowd, they also take a little time to assure everyone catches a hook or two to leave them wanting more.

TV & Radio
